

## Material Girl - Angotti

Pattern will be sold in class (\$7). Do not precut anything since different methods can be used in class.

In the pattern there are 20 different prints...you can certainly use more or less...fabric from your stash will work or  $\frac{1}{4}$  yard or fat quarters of each as well as  $3\frac{1}{2}$  total of background for blocks and more if you want borders out of that background ( $2\frac{1}{8}$ ).

Easy Angle tool (available for sale in class but can be found at most quilt shops)
