## Sunburst Class - Half Day

The classic Sunburst design is now available in acrylic templates. It can be rotary cut and pieced (or at least partially pieced) by hand or machine in this half day class. Marti Michell will show quilts and variations and go over techniques and tricks for making this stunning block. If you feel stuck in strip techniques, this is the perfect block to pull you out!

*Marti will supply the Sunburst templates for use in class.*

### **Materials List:**

Cutting supplies: rotary cutter, ruler and mat (smallest rotary cutter optional)

Routine sewing supplies - hand or machine (this class can be taken either way)

Machine if you plan to use a machine

Fabrics needed: At least 5 fabrics you like together- fat quarters (18" by 22 1/2") are a fine size, but 14 inch squares of fabric are the least you should bring. Think about a background fabric and about variety in values, scale, etc. You may want to bring several combinations to play with.
